## WELCOME TO WOODBURN - ECO FUEL

### Premium Wood Fuel Products

At Woodburn, fuel is more than fire — it's comfort, connection and every-day living done right. Whether heating your home, cooking outdoors or caring for animals, the products you choose make a difference. Our mission is to provide cleaner, more efficient and more sustainable fuel options that support a better future for people and the planet.

We supply premium eco-fuels and wood-based products that deliver real performance where it matters — heat output, burn time, reliability and value. Every product in our range is carefully selected to meet high standards for quality and environmental responsibility.

# BRIQUETTES

## Nestro Briquettes

**High-density briquettes with long burn time. Low smoke, perfect for stoves and pizza ovens.**

Our Nestro Briquettes are the perfect balance of efficiency and sustainability. Made from compressed hardwood sawdust, they deliver high heat retention and slow, steady combustion, making them ideal for home heating and open fires.

Property	Specification
Material	Softwood
Dimensions	90 mm x 300mm length
Moisture Content	5-6 %
Calorific Value	~17.5 - 20.2MJ/kg
Ash Content	0.5 %
Package	10kg/960kg

**BUNDLE**  
10kg

**PALLET**  
960kg (96 Bundles)

# BRIQUETTES

## RUF Briquettes

**Efficient, high-heat fuel for clean home heating**

RUF Hardwood Briquettes are made from compressed hardwood sawdust with no chemical additives. They ignite easily and deliver a strong, long-lasting heat output with minimal ash. Ideal for wood stoves, fireplaces and fire pits.

Property	Specification
Material	Hardwood mix
Calorific Value	4,300–4,500 kcal/kg
Moisture Level	< 6.8%
Briquette Dimensions	60 × 90 × 150 mm
Packaging	10kg/960kg

**SINGLE**  
10kg

**PALLET**  
960kg (96 per pallet)

## Pini-Kay Briquettes

**Compact, slow-burning hardwood briquettes with low ash. Ideal for home heating.**

Engineered for exceptional heat output and extended burn time, our Pini Kay Briquettes are the ultimate choice for wood-burning stoves, fireplaces, and pizza ovens.

Property	Specification
Composition	Mixed wood
Dimensions	65 x 65 x 240mm
Moisture Content	<8 %
Calorific Value	~18.5 MJ/kg
Packaging	10kg/960kg

**BUNDLE**  
10kg

**PALLET**  
960kg (96 Bundles)

# PELLETS

## Wood Pellets

### High-quality compressed wood pellets for efficient home heating

Woodburn Bio Energy wood pellets are manufactured from natural wood residues, compressed without additives to produce a clean, efficient fuel source. Suitable for pellet boilers and stoves, these pellets offer consistent heat output and low ash levels for reduced appliance maintenance.

Property	Specification
Composition	Softwood
Dimensions	6 mm diameter
Moisture Content	~ 8 %
The heat of combustion	≥ 16.5 (MJ/kg)
Ash Content	< 0.7 %
Calorific Value	4.6 kWh/kg
Packaging	15kg/25kg/975kg

**BAG**  
15/25kg

**BULK BAG**  
960kg

# PELLETS

## Straw Pellets

### Natural fuel pellets for clean and efficient heating

Straw Pellets are made from compressed, sustainably sourced straw. Their low moisture content and uniform pellet size support a consistent burn and reliable heat output. Suitable for pellet stoves and boilers approved for biomass fuels.

Property	Specification
Pellet Diameter	8mm
Material	Compressed straw
Ash Content	Low
Suitable For	Biomass boilers & pellet stoves
Packaging	15kg/25kg/975kg

**BAG**  
15/25kg

**BULK BAG**  
960kg

# LOGS

## Kiln Dried Firewood

**High-quality hardwood logs for home and outdoor heating**

Kiln dried firewood provides a strong heat output and burns with a bright, steady flame. It is available in fresh-cut, semi-dry or kiln-dried formats, making it suitable for a wide range of wood-burning appliances.

Property	Specification
Available Wood Type	Oak, Ash, Beech, Hornbeam, Birch (Hardwood)
Length Options	25–27 cm and 28–30 cm
Log Thickness	Up to 20 cm

### Key Features

- Bright flame and reliable heat
- Suitable for stoves, fireplaces & outdoor fire appliances
- Flexible sizing and packaging options available

### Wood Types

- Oak
- Ash
- Beech
- Hornbeam
- Birch

Package: 2,3 - 2,7kg

### KINDLING IN A MESH BAG

Package: 6kg

### KINDLING IN A BOX

Package: 2,3 - 2,7kg

# FIRESTARTERS

## Wood Wool Firestarters

**Natural firestarters from wood wool and wax**

Safe and non-toxic, made of an environmentally friendly blend of wood wool and wax – only two ingredients. They are 100% natural and additive-free. Thanks to this, they do not affect the food taste so they are perfect for barbecues, firepits and campfires.

Property	Specification
Composition	Wood wool and natural wax
Ignition	Easy to light with long ignition time
Suitable For	Indoor and outdoor fire appliances
Packaging	25 pcs, 50 pcs, 1 kg, 2 kg, 3 kg, 12.5 kg

**WOOD WOOL  
FIRELIGHTERS - BOX**

# FIRESTARTERS

## Cube Firelighters

**Easy-lighting fuel cubes for BBQs, stoves and fireplaces**

Cube Firelighters are compact, pre-measured ignition cubes designed for quick and reliable fire starting. Each cube lights easily and burns long enough to ignite charcoal, briquettes or firewood, making them suitable for both indoor heating and outdoor cooking.

Property	Specification
Type	Solid ignition cubes
Format	Pre-cut plates of cubes
Suitable For	BBQs, stoves, fireplaces, fire pits
Packaging	32 cubes, 96 cubes, 160 cubes, 320 cubes

### CUBE FIRELIGHTERS

**Package:**  
1 PLATES – 32 cubes

### CUBE FIRELIGHTERS

**Package:**  
3 PLATES – 96 cubes

### CUBE FIRELIGHTERS

**Package:**  
5 PLATES – 160 cubes

### CUBE FIRELIGHTERS

**Package:**  
10 PLATES – 320 cubes

# FIRESTARTERS

## Fire Logs

### Easy-light logs for open fires, stoves and fire pits

Woodburn Fire Logs are compact, ready-to-use logs designed for clean, long-lasting flames in open fireplaces, fire baskets and closed stove systems. Each log offers up to 2.5 hours of steady burning. Simply light the wrapper — no additional firelighters or kindling required.

Property	Specification
Composition	Wood wool and natural wax
Ignition	Easy to light with long ignition time
Suitable For	Indoor and outdoor fire appliances
Packaging	700g Log

### FIRE LOG

700g

## Chimney Sweepers

### Supportive maintenance log for stoves and fireplaces

Woodburn Chimney Sweepers help reduce soot and creosote build-up during routine use of wood-burning appliances. When burned on an established fire, the log releases active cleaning agents that loosen deposits, lowering the risk of chimney fire and improving appliance efficiency.

Property	Specification
Material	Compressed wood fibres + catalytic agents
Use Frequency	Every 1-2 months (depending on usage)
Application	Burn on top of a well-established fire
Suitable For	Open Fireplaces, stoves, closed inserts
Packaging	700g Log

### CHIMNEY SWEEPER

700g

# FIRESTARTERS

## Match Firelighters

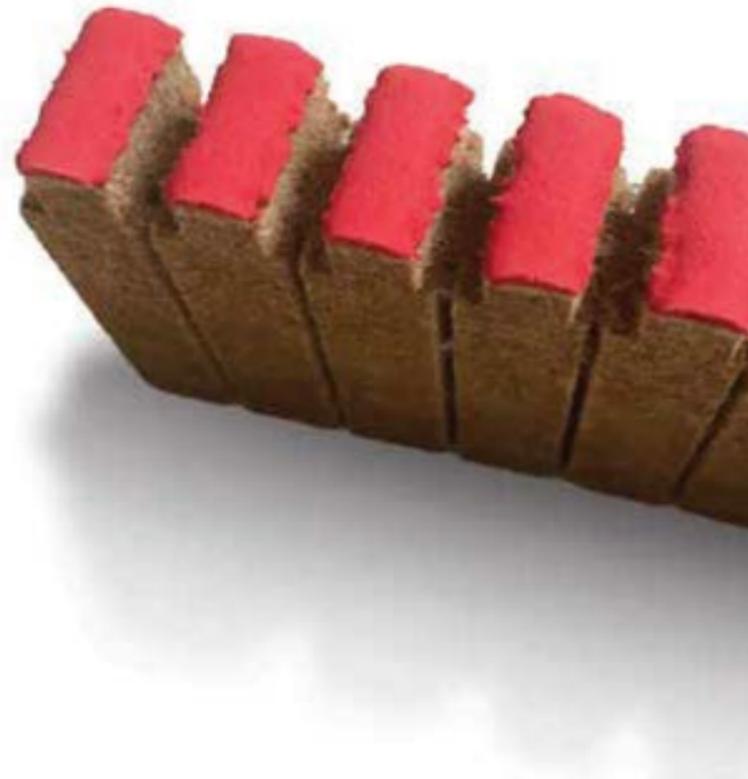

Simple strike-to-light fire starters for BBQs and home heating

Match Firelighters combine the ease of a match with the burn time of a fire-lighter. Each stick lights with a single strike and burns long enough to ignite charcoal, logs, briquettes or kindling. An ideal option for fast, clean fire starting with no chemical smell.

Property	Specification
Type	Porous Fiberboard
Ignition	Strike-to-light
Smoke Output	Low
Suitable For	Charcoal BBQs, fire pits, stoves, fireplaces
Burning time	8-10min
Packaging	12 pcs & 24 pcs
Dimensions	170 x 60 x 18mm

### Key Features

- ✓ Burning time: 8-10min
- ✓ Strike-to-light convenience
- ✓ Clean, low-smoke ignition
- ✓ Burns long enough to start logs or charcoal
- ✓ No chemical odour
- ✓ Compact, easy-to-store format

## MATCH FIRELIGHTERS

Package: 12 Pcs

## MATCH FIRELIGHTERS

# WOODCHIPS

## Smoking Chips

### Hardwood chips for flavouring BBQ and smoked dishes

Smoking Chips are made from selected hardwoods and used to add natural smoke flavour to food during BBQ or smoking. Suitable for gas, charcoal and electric smokers, they provide a clean, controlled smoke output and consistent flavour release.

Available in Oak, Apple, Cherry, Beech, Alder.

Property	Specification
Material	Natural hardwood chips
Options	Oak, Apple, Cherry, Beech, Alder
Chip Size	Uniform smoking-grade chips
Smoke Output	Medium to strong, depending on species
Suitable For	Gas BBQs, charcoal grills, smokers, kamados
Packaging	750 g box

**SMOKING CHIPS**  
500/750g

### Available:

- Oak
- Apple
- Cherry
- Beech
- Alder

# CHARCOAL

## Restaurant Charcoal

**Premium hardwood charcoal for clean, reliable outdoor cooking**

Restaurant Grade Charcoal is a high-quality hardwood fuel designed for barbecues, grills, smokers and outdoor cooking. Made from dense hardwoods and fired at high temperatures, it delivers a steady, controlled heat with minimal smoke. Its larger pieces burn longer than standard charcoal, making it ideal for home cooks, food trucks and commercial kitchens.

Property	Specification
Material	Natural hardwood charcoal
Piece Size	Large, irregular restaurant-grade pieces
Burn Characteristics	Long burn, steady high heat
Smoke Output	Low
Suitable For	BBQs, smokers, kamado grills, outdoor cooking

**SMALL BAG**  
4kg

**BIG BAG**  
10-12kg

**Suitable for**  
BBQs  
Smokers  
Kamado grills  
Outdoor cooking

**Comfort for  
your companions.**

## ANIMAL BEDDING THE ECO WAY

Soft, clean and highly absorbent bedding that helps keep animals dry, comfortable and cared for. Easy to use, simple to store and kind to the environment.

# PELLETS

## Wood Pellets

### Highly absorbent pellet bedding for horses and small animals

Wood Pellet Bedding is produced from compressed, dust-extracted softwood pellets. When watered lightly, the pellets expand into a fluffy, highly absorbent bedding that stays dry on top and traps moisture underneath. Suitable for horses, poultry, small animals and general stable use.

Property	Specification
Raw Material	Pine & spruce
Durability	> 97.5%
Moisture Content	8-12%
Bulk Density	600-700 kg/m <sup>3</sup>
Absorption	Very high — expands when wetted
Suitable For	Horses, poultry, rabbits, guinea pigs, small animals
Packaging Options	15 kg bags, 25 kg bags, Big Bags

**BAG**  
15/25kg

**BULK BAG**  
960kg

# PELLETS

## Straw Pellets

### Compressed natural hay pellets for animal bedding

Hay Pellets are made from dried, finely milled hay compressed into dense, absorbent pellets. They expand when moisture is introduced, creating a soft, dry and comfortable bedding surface. Suitable for horses, small animals and livestock housing.

Property	Specification
Raw Material	Hay
Durability	> 97.5%
Ash Content	< 1.5%
Moisture Content	8-12%
Suitable For	Horses, poultry, rabbits, guinea pigs, livestock
Packaging Options	15 kg bags, 25 kg bags, Big Bags

**BAG**  
15/25kg

**BULK BAG**  
960kg

# SHAVINGS

## Shavings Bedding

### Soft, dust-reduced pine shavings for equestrian bedding

Shavings Bedding is produced from clean, soft pine shavings designed to provide a dry, comfortable and hygienic bedding surface. The low dust content improves air quality in stables, while the natural softness of pine provides good cushioning and reliable absorbency.

Property	Specification
Material	100% pine
Moisture Content	>15%
Foreign Matter	0.1%
Powder Content	>5%
Dust Level	Low (dust-reduced)
Absorption	High
Suitable For	Horses, poultry, rabbits, guinea pigs
Packaging	Compressed and packed in jumbo bags
Container Load	22-24 tonnes per 40' HC container

**BAG 20 kg**  
Size 28x40x80 cm

Full pallet 24 - 27 bags  
Full load 792 - 1026 bags

**W**  
**For gardens  
that feel great to be in.**

## LANDSCAPING THE ECO WAY
